

Invest in the future

*promote peace
protect God's creation
reduce poverty
cut military spending*

Dear _____ ,

Today the U.S. spends more on its military than nearly all countries of the world *combined*. This level of spending is unsustainable, contributes greatly to U.S. debt, and takes resources from programs that address poverty, promote peace and protect God's creation.

Please help craft a responsible budget that reduces the deficit, cuts Pentagon spending, and invests in life-giving programs.

Sincerely,
